## PROFESSIONAL EXPERIENCE

# **ABOUT ME**

I am a skilled and dedicated Software Engineer with a strong background in web development, backend systems, and software architecture. This versatility enables me to seamlessly adapt to various roles, performing effectively as a full-stack developer.

I thrive in collaborative environments, fostering synergies to enhance both my performance and that of the team. Having worked primarily in English throughout my career, I am equally proficient in communicating with colleagues in both English and Spanish.

I am committed to clean coding practices, design patterns, refactoring principles, and continuous integration/deployment methodologies. Additionally, I am an advocate of Agile methodologies and hold Scrum certifications.

# HARD SKILLS

Full stack experience A node

Cloud architectures

Lean, Agile & Scrum

Clean Code, CI/CD, DevOps (

# **SOFT SKILLS**

Eager learner: always exploring new software technologies and books

Team player and coach: focused on the team needs and sinergies

Product mentality: validate value propositions through experiments

Creativity: problem-solving and innovative thinking

### Full Stack Developer & Product Manager

Jan. 2024 - Today

As a member of the Innovation and Product department, I helped transform a prototype into a fully functional, CI/CD-supported web and mobile application for technical assistance services. My role included full-stack development, CI/CD automation, and product management. Later, I led the development of a billing software product integrated with public administration systems, focusing on coordinating development, managing the backlog, and designing the backend using hexagonal architecture and automated testing. Stack: Angular, Flutter, AWS Cloud, IaC, Python, Stripe.

### **Full Stack Developer & Scrum Master**

Nov. 2021 - Dec. 2023

**Grupo Vermon S.L.** 

Hired on behalf of TMConnected to develop its MCO product, a management and monitoring system for railway maintenance machinery fleets. I supported our international agile team as a developer, building new product modules and features. Later, I transitioned to Scrum Master, facilitating training, enhancing team communication, and driving improvements in technical and value delivery practices. With a strong focus on rapid delivery, I introduced pair programming, feature flags, and flow metrics. I also coached team members on best practices and architectural principles. Stack: Angular and microfrontends; AWS Cloud, IaC, Python, microservice-based backend architecture with ETLs.

#### Researcher

Feb. 2021 - Oct. 2021

Universidad De Castilla-la Mancha

Research support staff in R&D&i project. Design and evaluation of multi-objective optimization algorithms. Stack: Python, Pandas, Numpy, Matplotlib.

# **EDUCATION**

Certified Cloud Pract. + Solutions Architect - Associate • AWS

Professional Scrum Master II + Product Owner I • Scrum.org

#### **PhD In Advanced Computer Technologies**

2021 - 2025

Universidad De Castilla-la Mancha

Part-time researcher at the Intelligent Systems and Data Mining Laboratory. Metaheuristics and machine learning applied to software project management and release planning. Works presented in international journals and conferences.

#### **Masters Degree In Computer Science**

2020 - 2021

Universidad De Castilla-la Mancha

Multidisciplinary training and management skills. 5 distinctions with honours. - TFM: "Scrum management software enhancement for automatic Product Backlog prioritization". Stack: Angular, NodeJS, MySQL, AWS, Python. Mark: 10.

#### **Bachelor's Bilingual Degree In Computer Science**

2016 - 2020

Universidad De Castilla-la Mancha

Mention in Software Engineering. 4 distinctions with honours.

- TFG: "TheProductOwnerd: Support tool for the Product Owner". Stack: Angular, NodeJS, MySQL. Mark: 10.

### First Certificate In English (B2) · Cambridge

ADDITIONAL ACHIEVEMENTS

SISTEDES - NTT Data Award for the best Masters Thesis

2022

**Charles Babbage Award for the best Masters Thesis** 

2021

**Best Academic Record of the Masters Degree In Computer Science** 

2021

Pictotrainer - Third Award • Esiiab • Hack For Albacity

2020

Web and mobile application for the training and rehabilitation of people with functional diversity, presented to the HackForAlbacity2020 competition in

collaboration with the CRMF-IMSERSO.
