## ABOUT ME

I'm a professional, competent and passionate Software Engineer. I'm experienced in web development and frontend design, as well as backend and software architectures, which allows me to easily adapt to most job positions, being able to work as a full-stack developer.

I enjoy teamworking and pursuing sinergies to get the best of me and the team. I've developed most of my career in english and, thus, I can effectively communicate with my coworkers whether they speak english or spanish.

I'm devoted to clean code practices, design patterns, refactoring principles and continuous integration/deployment techniques. I'm also a solid Agile promoter and certified Scrum Master.

## HARD SKILLS

- Web development
- Software architectures
- Agile development & Scrum
- Clean Code, CI/CD, Testing

## SOFT SKILLS

- Self learning
- Teamwork
- Critical thinking
- Creativity

## PROFESSIONAL EXPERIENCE

### Full Stack Developer & Product Manager
**Jan. 2024 – Today**
Teknei
Product management and full stack development in the Innovation and Product Department. My duties included supporting the inception, design, prioritization and implementation of new software products for the company. Technologies: Angular, FLutter, AWS Cloud services in Python.

### Full Stack Developer & Scrum Master
**Nov. 2021 – Dec. 2023**
Grupo Vermon S.L.
Hired on behalf of TMConnected, developing its MCO product: a management and monitoring system for maintenance machinery fleets in the railway sector. I supported our international agile team as their Scrum Master by doing training, meeting facilitation, communication improvement, innovation in technical and value delivery practices. Technologies: Angular and microfrontends; AWS Cloud services in Python for a microservice-based backend architecture and ETLs.

### Researcher
**Feb. 2021 – Oct. 2021**
Universidad De Castilla-la Mancha
Research support staff in R&D&i project. Design and evaluation of multi-objective optimization algorithms. Technologies: Python, Pandas, Numpy, Matplotlib.

## EDUCATION

### Certified Cloud Practitioner • AWS
**2023**

### Professional Scrum Master II • Scrum.org
**2023**

### PhD In Advanced Computer Technologies
**2021 – Today**
Universidad De Castilla-la Mancha
Part-time researcher at the Intelligent Systems and Data Mining Laboratory.

### Masters Degree In Computer Science
**2020 - 2021**
Universidad De Castilla-la Mancha
Multidisciplinary training and management skills. 5 distinctions with honours.
- TFM: "Scrum management software enhancement for automatic Product Backlog prioritization". Technologies: Angular, NodeJS, MySQL, AWS, Python. Mark:10.
